

MOORING BUOY SPECIFICATIONS

Pursuant to the Navigation Law Part 448 all mooring buoys shall meet the following minimum specifications

- At least one cubic foot of buoy to be above the waterline
- Every buoy must be equipped with a one-inch strip of reflector tape all around the upper part.
- All white with a one-inch blue stripe all around the buoy horizontally, above the waterline.

No vessel or part thereof which is secured to a mooring buoy shall at any time extend more than 100 feet from shore and no floating object may be placed in a navigable channel or in any location in which it will interfere with free and safe navigation or free access to another person's property.

A permit from the Lake George Park Commission is required to place a mooring
